

# HAZARDS CONFERENCE 2021

FIGHTING FOR THE FUNDAMENTAL  
RIGHT TO **SAFE AND HEALTHY WORK**

Saturday 31 July – Sunday 1 August

The Hazards Conference is the UK's largest educational and organising event for trade union safety reps and activists. Safety reps make a huge difference in supporting and extending workers' basic rights and conditions. The conference will look at innovative and practical solutions to many of the issues facing workers and provide opportunities to network, exchange experience and information and learn from safety reps and activists from other unions, sectors and jobs across the UK.
